Education

University of California, Santa Cruz Computer Science B.S.

March 2023 GPA: 4.0

Coursework: Algorithms & Data Structures, Operating Systems, Databases, Networking, Machine Learning, Full-Stack Web Development

Organizations: Google Developer Group, Alpha Kappa Psi (Business Fraternity)

Experience

Traba Software Engineer II

Mar 2026 – Present New York, NY

TypeScript, Stripe, Zeal

- Rebuilt the Clearing House from scratch, improving payment processing reliability and scalability
- Built a unified billing contacts experience with full role-based permissions across the platform
- Integrated Zeal and Stripe APIs to streamline payroll disbursement and payment workflows
- Enabled Instant Pay for W2 workers, expanding earned wage access to a new worker segment

Amazon Software Development Engineer

Nov 2023 – Mar 2026 New York, NY – Remote

Java, Kotlin, JavaScript, AWS

- Built a telemetry system that helped 300K+ services migrate off legacy dependencies
- Developed a data pipeline ingesting and surfacing telemetry metrics to 15K+ service owners
- Optimized OAuth-based authentication protocol, reducing memory usage by 32%

Amazon Software Development Engineer Intern

Jun 2022 – Sep 2022 New York, NY

Python, Scala, AWS, Spark SQL

- Built an AWS dashboard collecting and displaying critical business metrics across internal services
- Surfaced security insights across 50K internal services, saving 10 developer-hours/week on metric collection

Sage Software Development Intern (NLP)

Jun 2021 – Sep 2021 San Jose, CA

Python, R, SQL, NLTK

- Built an NLP model to match user questions with domain experts, driving 10K MAU organically
- Evaluated supervised learning methods (Random Forest, KNN) and vectorization strategies (TF-IDF, N-Grams) using scikit-learn and pandas

Projects

SayV – Android Application

Java, Node.js, Firebase

- Built a P2P community-based panic button alarm system for Android
- Won Top 20 App and cash prize at Los Altos Hacks, one of the largest Silicon Valley hackathons

TRVL Rideshare Assistant – Chatbot

Python, API.AI, Facebook Messenger API

- Built an NLP-powered chatbot that compares rideshare prices across services via conversational interface

CanvasCal – Status Bar App

Python, Google Calendar API, Canvas REST API

- Synced academic schedules from Canvas to Google Calendar with automated reminders and assignment tracking

Skills

Languages: Java, Kotlin, Python, C/C++, Javascript, Typescript, Scala, SQL, HTML/CSS, Assembly, Bash, LaTeX

Tools: AWS (CDK, EC2, ECS Fargate, Lambda, S3, IAM, CloudWatch), Git, Linux, Docker, Kubernetes, GCP, PostgreSQL, Stripe, Zeal

Libraries/Frameworks: React, Spring, Node, Auth0, Express, SFML, OpenCV, API.AI, scikit-learn, numpy
